Year 6 Remote Learning

What is remote learning?

Due to the Coronavirus, some children may have to miss school while they isolate. This may be for a couple of days if they are waiting for test results or longer if a member of their household has had a positive test. Remote learning is learning from home when children can't be at school because of Covid-19.

What will remote learning look like in Year 6?

You can access the remote learning activities using your Microsoft 365 account. Navigate to www.office.com in any browser (or search for office 365) and select *Sign In*. Your child has been assigned individual log in details which will have been stuck into their Reading Logs. They have been shown how to use the tools they will need at school. Here is quick recap:

All of the children's remote learning can be accessed through the 'Class Notebook' which can be found in the 'One Note' App which is part of Office 365. The children have been using this every week in class so should be very familiar with accessing the online work.

The children have all been briefed and all have their username and passwords within their reading record.

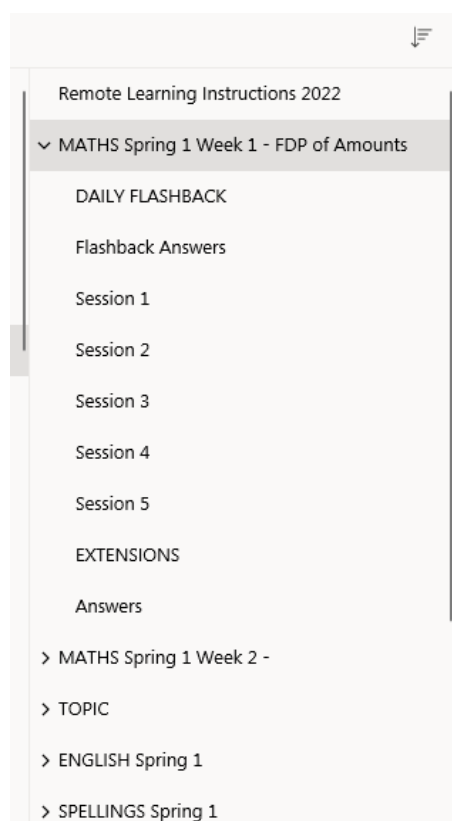

Select the **ONENOTE** icon from the left hand tool bar.

This will open a new workspace. Select **CLASS NOTEBOOK** from the top menu bar and then click on the link for your child's class notebook e.g.

Which activities do I need to do and when?

In the event that your child has to isolate, or we return to remote learning, he or she will be provided with activities within *subject Sections* of the *Class Notebook* to complete. They may also be signposted to resources in the *Content Library*.

MATHS Spring 1 Week 1 - FDP of Amounts

29 September 2021 16:29

In Autumn 2 you learnt all about Fractions and Percentages.

In this next unit you will be working on using that knowledge to find fraction and percentages of an amount.

Use the Teaching slides to help you work through the questions on the sheets.

There are Extension tasks and a daily Flashback to complete.

There are answers included for you to check your work.

Where possible, each day your child should complete an English, Maths as well as other activities such as topic, creative projects or science. In the *Content Library* within the *Class Note Book* you will find a page of links including code.org, TT Rock Stars and Touch typing. Please encourage your child to access these regularly. If your child has a *Nessy* account he/she should also access the reading and Spelling activities for 20 minutes each day.

Reading

Where possible, each day your child should read a book for 20 minutes. The children will still have access to the AR system to allow them to complete regular quizzes. Your child will also have access to weekly reading comprehension activities to choose from.

Maths

Maths activities will be provided including video lessons and activities to complete. All links and instructions will be provided along with answer sheets.

English

We have English lessons 4 times a week at school. There will be resources, possible web links and activities to complete.

What if my child can't do all of that every day?

Our aim is to provide you with a full school days worth of work so that *if* you are able to home school every day, you won't run out of work. We understand that some people are unwell, working from home etc so we understand that for some people they might not complete everything provided in projects. This is OK. Just do what ever you can, when you can.

Where should my child work and who will see it?

Children can choose to work on a digital page in the *Class Note book* or on paper if this is preferred. We would ask that photos of paper based work be added to the relevant *Class Note Book* page. The children can also create their own pages in the *subject sections* if they wish. The teacher has full access to the Class Notebook and can access your child's work in real time.

What if I get stuck on my work and I don't understand?

The teachers will be available (providing we are well) through the TEAMS messaging app or via the class email addresses and will get back to you as soon as they can, during working hours.

Class email addresses.

6Willow@brampton.cambs.sch.uk	Mr Church
6Maple@brampton.cambs.sch.uk	Mrs Barton
6Beech@brampton.cambs.sch.uk	Mr Cattermole

What if I can't print the activities?

You can email the school (closure@brampton.cambs.sch.uk) and request a printed work pack, but you will need someone who is not isolating to collect it as soon as possible. These packs do take time to prepare so we would appreciate it if you only request one if you can't print and if you are able to have it collected.

What if my child's class is closed?

If the whole class is sent home to isolate, then we will continue to send work via the *Class Note Book* in the same way. However, a comprehensive timetable of daily activities will be provided including links to daily zoom teaching sessions undertaken by the class teacher (health permitting). The zoom session will then be followed by a focused activity which the children will need to complete. Feedback will be given on this activity if submitted by 4pm on the day it is set. Further information will follow in this event.

Please contact us via TEAMS, the class email or the office email if you have any questions.
