Home Learning: What has happened to the trees now it's winter?

Dear Families,

The children continued to enjoy snacks outside and this week was baked potatoes in tin foil while a story was being read.

On our weekly walk we went to look for clouds and to see what shapes they made and how they moved.

Sincerely,

Miss Sallie

Learning Goals:

Topic: 'Winter' **Main Text:** Wow! It's Night Time

We completed a simple circuit to make a light bulb turn on and spoke about light and dark.

We used torches and enjoyed afternoon snacks by torch and candle light. We also shared how the dark makes us feel.

We also used UV lights to go on a word and number hunt.

We listened to 'The Planets' by Holst and spoke about how it makes us feel, before making movements to the music.

Reminders:

To help children put their shoes on the correct feet, cut a large sticker in half. Place each half inside each shoe so when the shoes are together the sticker becomes whole again.
