Home Learning: Why not use mud at home to plant some Spring bulbs like we have done this week at Brambles? Have a look out for some worms on your walks.

Dear Families,

We hope you had a Happy Christmas and enjoyed making magical memories together. We thought we would start the year by sharing a 'What to expect in Early Years' parent guide for your information.

Learning Goals:

Topic: 'Spring' Main Text: 'Mud' by Mary Lyn Ray

This week we have learnt that mud is earth that is mixed with water and that people dig in the mud so that they can plant seeds to grow vegetables and flowers. We discovered that worms live in mud and soil and make horizontal burrows and burrow deep in the soil. We looked closely at a worm and observed that it has a pointed head and a slightly round body. We looked up what the lines are on a worm and discovered they are called segments and that they are invertebrates as they have no bones in their bodies which helps them to wiggle.

We also learn that worm poo is called castings.

Our key words this week were:

Mud, worm, casting, dig, segments and deep

This week's special snack:

Mud (chocolate Angel Delight and crushed Oreos)
