Week 23 1st-5th March
Rain

Week 24 8th-12th March
Spring Flowers

Home Learning: Take a listening walk to see and hear spring sounds such as birds, lawnmowers etc.

Dear Families,

We went on a listening walk this week for our nature walk to listen out for signs of Spring.

We have enjoyed talking about the Curiosity objects on the table (wellies and an umbrella) and discussing when and how we would use them.

Sincerely, Miss Hayley

Learning Goals:

Topic: 'Spring' **Main Text:** Rhythm of Rain by Grahame Baker Smith

This week we have learnt that rain is droplets of water that fall from clouds. Heat from the Sun turns moisture (water) from plants and leaves, as well as oceans, lakes, and rivers, into water vapour (gas), which disappears into the air. This vapour rises, cools, and changes into tiny water droplets, which form clouds.

Reminders:

World Book Day was on Thursday 4th March. If you read just one book a day to your child, they will have had 1,825 books read to them by their 5th birthday. Every book matters.

Please do let Brambles know via email or phone if your child is absent for any reason. Pre-school still needs to keep records, especially with regard to any Covid cases.
