Autumn Term 2: Week 9

Dear Families,

Stella, the photographer shared how lovely all the children were when she took photos on Monday and is looking forward to returning in the summer for individual and class photos.

Thank you for naming all the new thicker and warmer winter coats, it makes it easy for all, including the children in recognising their own name.

You may have noticed the two new wooden shelters that have arrived in the garden, thank you to the caretakers for putting them up.

Sincerely, Brambles Team

7th - 11th Nov

Home Learning:

Find the highest hill near where we live such as the one at Hinchbrook park to walk up or the one over at Monks Wood National Nature reserve near Alconbury Weston. Talk about what you can see at the bottom and what you can see from the top. Feel your heart and breath before you climb up and again when you get to the top, notice any changes?

Learning Goals:

The learning goals this week were for children to be curious and be intrigued about mountains by having provocations of famous mountain ranges around the world; Mount Everest, Mount Fuji, Mont Blanc, K2, Ben Nevis, Rocky Mountains and the Matterhorn. They created a small world scene with mountains, a river, snow and a little lodge. They also added loose parts like pieces of felt; glass gems, bark, rocks and cotton wool. We watched video clips of children and adults climbing mountains and skiing down.

This weeks texts:

Let's Explore: Mountain by Lonely Planet Kids
