Autumn Term 2: Week 11

21st – 25th Nov

Home Learning:

Use the internet together to search for videos of the Northern Lights. Provide globes and maps to talk about the parts of the world where you're most likely to see them.

Staff Update

We are very sorry to tell you that Miss Sallie will be leaving Brambles after 15 years at the end of this term. We will update you with arrangements for next term as soon as we can.

Dear Families,

Thank you to those families who have replied to let us know they are coming on Sunday to Jubilee Junior Parkrun to walk, skip, jog and have fun! We look forward to seeing you at 8.40am.

Thank you for helping your little one by naming coats, mittens and buffs/snoods. Thank you also for keeping scarves and finger gloves at home.

We currently only have one family who have offered to help with the Round Table collection, we are still looking for more helpers please.

Sincerely, Brambles Team

Learning Goals:

Our learning this week has been about the Northern Lights. The northern lights (called the aurora borealis) and the southern lights (aurora australis) appear when tiny particles stream out from the sun and hit the earth's atmosphere. We have looked at the different colours and how they move and swirl around the sky and we have enjoyed dancing with coloured scarves to recreate the Northern Lights to music. We also used a projector to watch them on the ceiling.

This weeks texts:

Aurora. A Tale of the Northern Light by Mindy Dwyer
The lights that Dance in the Night by Yuval Zommer

Reminders:

Progress Reports
Sent out 1st & 2nd Dec

Winter Assembly
Friday 16th Dec 1-2pm
ALL children are invited
even if they do not attend
on a Friday
