Year Reception

[illegible]

The logo for Brampton Village Primary School is circular. It features a large, stylized green tree with a brown trunk in the center. To the left of the tree stands a boy in a white shirt and dark trousers, and to the right stands a girl in a white shirt and dark skirt. They are both holding hands. The words "BRAMPTON VILLAGE" are written in a semi-circle above the tree, and "PRIMARY SCHOOL" is written in a semi-circle below it, all in a golden-brown color.

Our 5Rs for Learning

Phonemes

- Phoneme is the official term for 'sound'
- A phoneme is the smallest unit of sound in a word
- Each phoneme is represented by one or more letters

Phonemes in words

cat

light

. — .

Phonemes

- There are 44 different phonemes.
- The most common or frequently occurring phonemes are taught first-i.e. the individual letter sounds s,a,t,p,i,n.
- We later teach digraphs and trigraphs i.e. ai, ee, igh, oa, oo.
- 'Pure sounds' are taught e.g. not adding 'uh' to the end of the phoneme.

Segmenting

- Segmenting means listening carefully for each phoneme in a word (and getting them in the right order)
- At first a child may only hear some of the phonemes in words

Blending

- Blending means pushing all the phonemes in a word together to read
- At first children find it easier to do this orally
- In time children will be able to look at the letters / groups of letters in words to read words

Comprehension

I cdnuolt blveiee that I cluod aulacly usdnatnrd what I was rdgnieg. The phaonmneal pweor of the human mind. Aoccdrnig to rscheearch at Cmabrigde Uinervtisy, it deosn,t mtt aer in what order the ltteers in a word are, the only iprmoatnt thing is that the frist and lsat ltteer be in the rghit pclae. The rset can be a taotl mses and you can still raed it wouthit a porbelm. This is bcuseae the human mind deos not raed ervey lteter by istlef, but the word as a wlohe. Amzanig huh? I awlyas thought slpeling was ipmorantt!

Comprehension

The reason this is possible is that the grand unification energy there is no essential difference between a quark and an anti electron.
