Rainbows

Week 34

17th May - 21st May

Bees

Dear Families,

On this week's nature walk we went on a colour hunt to see if we could find all of the colours in a rainbow. We took a sheet with all the colours on it to help remind us what to look for.

We explored colours by mixing with coloured water and pippets. We left the coloured water mixing in clear jars outside and explored the reflections we saw.

Home Learning: Why not create a rainbow at home? Perhaps use an old CD and light to project the image onto paper or tidy your toys into colours?

Sincerely,

Miss Sallie

Learning Goals:

Topic: 'Spring' **Main Text:** 'Planting a Rainbow' by Lois Ehler

We talked about the rainbows we might have spotted around our local area and ones that have been painted and displayed in our windows. We wrote down what we knew about rainbows and then found out even more facts from books and the internet. We also created our own rainbows with transient art using coloured buttons on black card.

Reminders:

Brambles provide sun hats so please do not bring any to pre-school. Please also leave sunglasses at home.

As the weather is getting warmer, please ensure your child arrives with sun cream on. If your child is at Brambles all day, staff will help apply additional sun cream over lunch provided by Brambles.

We made a rainbow on our plate using fruit and vegetables for snack this week.
