Rain

Home Learning: Why not  
make your own wormery?

Dear Families,

On this week's nature walk  
we enjoyed looking for  
environmental numbers in  
the school grounds and  
around the front of the  
school in the village

We have enjoyed using our scissor skills to  
create some spiral worms

Sincerely,

Miss Rose

## Learning Goals:

**Topic:** 'Winter' **Main Text:** Yucky Worms (Our  
Stories) by Vivian Fren

*Worms are not quite as yucky as we thought, as we have  
learnt lots about them this week. We have discovered  
that worms do not have eyes to see, instead they use  
their receptor cells to feel. We found out that worms  
do not have lungs like us, but breath through their skin  
and like being wet. We also found it fascinating that  
worms have 10 hearts!*

## Reminders:

*Please continue to bring  
a warm coat with your  
child each session as the  
weather really does  
change over the course  
of the day. Springtime is  
still quite cold.*

*Please return folders  
that were sent home  
before half term.*

option 2

For snack this week we  
ate macaroni cheese  
cooked on the campfire
